Art Unit: 3727

1. Claims 8-9 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-21 of U.S. Patent No. 6622858. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one of ordinary skill in the art to eliminate the limitations when they are not desired. Furthermore, It would have been obvious to one of ordinary skill in the art to combine claims together to provide claims 8 and 9 as set forth.

2. This application is in condition for allowance except for the formal matters as set forth above. It is noted that the examiner previous inadvertently fails to provide claims 8 and 9 together with the obvious type double patenting as set forth previously. It is clear that the limitations in claims 8 and 9 are taught respectively from claims 7 and 8 of U.S. Patent No. 6622858.

Applicant to provide a terminal disclaimer to overcome the double patenting rejection as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

3. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
